

ESTImATe 2016: Effective Security risk management in Air Traffic management
held in conjunction with ESSOS 2016

Call for Papers

Deadline: **22nd February 2016**

Workshop: **6th April 2016**

<https://estimate2016.wordpress.com/>

ESTImATe aims to bring together practitioners and researchers interested in security management practices to defend critical infrastructures and in the evaluation of their effectiveness.

The workshop is sponsored by SESAR JU WPE call for tender EMFASE (Empirical Framework for Security Design and Economic Trade-Off).

Call for Papers

Areas of interest include but are not restricted to:

- Empirical evaluations of security risk assessment methods
- Empirical evaluations of security visualization
- Empirical frameworks to assess the effectiveness of security methods
- New visualisations for security threats
- New cyber security risk assessment methods
- Challenges of security assessment in critical infrastructures

Authors are invited to submit Research Papers (8 pages) or Position Papers (2 pages).

Submission

Submissions must be written in English with at most 8 pages including the bibliography and appendices. Submissions must be in double-column CEUR-WS.org style format. LaTeX style files and samples are available here: <http://ceur-ws.org/Vol-XXX/samplestyles/>. Only PDF files will be accepted. Accepted papers will be published as CEUR Workshop Proceedings.

Electronic submission site: <https://easychair.org/conferences/?conf=estimate2016>.

Organisation

PC Chairs

- Federica Paci, University of Southampton
- Rainer Kölle, SESAR JU
